

WellSouth Strategy

OUR VISION

Best health and wellbeing for Southern communities.

OUR CORE PURPOSE

To empower and support providers to deliver sustainable, accessible, equitable quality care to Southern communities.

AIMS

Widespread equitable, high-trust partnerships across the sector.

Te Tiriti and equity driven decision-making leading to equitable outcomes.

Integrate care across our health system; community primary, secondary.

Support for primary care providers to work towards Pae Ora (Healthy Futures).

STRATEGY

Embracing and developing **partnerships and relationships** will improve outcomes for our communities.

Using **resources** through monitoring and evaluation to ensure equitable health outcomes.

Positioning and developing the organisation to be a trusted, useful part in the system.

Listening to all providers and communities and advocating for their needs.

Ensuring **equity** aspirations and priorities of communities are supported.

ACTIONS

- Understand and address causes of inequities in our communities.
- Advocate for sustainable rural health solutions.

- Develop and strengthen new and existing partnerships.
- Understand and facilitate workforce development and retention activities

- Use data and technology to assist primary care providers.
- Work collaboratively with our hospital partners to develop integrated models of care.
